

Candidate: Steven Mizrahie

Parent of: Dylan (3), Sophia (K)

My family and I have been proud members of the school community for more than four years, and during that time we have made it a priority to be actively involved in supporting the school, its students, and its continued success. We have two children who attend ECES, Dylan who is in 3rd grade, and Sophia who just entered Kindergarten. I currently serve on both the ETEAM Executive Board and the Charter Leadership Council, which has given me the opportunity to work closely with parents, school leadership, and other members of our community.

I am interested in serving as Vice Chairperson because I would like to take a greater role in helping guide the school and supporting the Board in its responsibilities. I believe my experience in leadership and business, combined with my familiarity with the school and its community, would allow me to bring a practical and thoughtful perspective to the Board. I value collaboration, accountability, and open communication, and I would work to ensure that decisions continue to be made with the best interests of our students, families, teachers, and the long term success of the school in mind.

Most importantly, I am invested in this school not only as a parent, but as an active member of the community who wants to see it continue to grow and succeed. I would welcome the opportunity to contribute my time, experience, and perspective as Vice Chairperson.
